

TEACHERS' INSTITUTE.

Annual Meeting of Madison County Instructors.

SESSION STARTS OUT FAVORABLY.

Larger Number of Teachers Present than Ever Attended a Previous Session—The Work Proving of Interest—Will Continue Through the Week

The Madison County teachers' institute convened at the High school building in this city yesterday, with a large number of teachers in attendance. At noon today there was an enrollment of 110, which is 25 more than attended the institute of a year ago. Those present have by this time settled down to the work in hand, from which much good will result. The institute is divided into two sections, the rural and graded. The rural section opened yesterday afternoon by a discussion, conducted by Superintendent O'Connor, on organization and classifying the school, discipline, etc. Special emphasis was placed on reading by Mr. O'Connor, as this is the branch which is usually given the least attention.

The graded school section was opened yesterday with a discussion on methods of instruction, under direction of Prof. H. E. Funk in the absence of Prof. F. S. Perdue.

The morning session today was taken up with the regular program which is as follows:

- 8:30—Opening exercises.
- 8:45—Arithmetic, grammar.
- 9:30—Geography, drawing.
- 10:15—Intermission.
- 10:25—Physiology, reading.
- 11:30—Writing.
- 11:50—Intermission.
- 1:30—Opening exercises.
- 1:45—Primary method.
- 2:30—Round table discussion.

This afternoon both sections are considering discipline under the head of round table discussion, the rural being led by Superintendent Crum, and the graded by Superintendent O'Connor.

This evening the teachers are invited to attend the Ben Hur stereopticon entertainment at the First Congregational church.

Friday evening Prof. Ed Amherst Ott will lecture at the M. E. church, giving his popular subject, "The Bigot," which is thus described: "This lecture, with all of its humor and pathos, is a reflection from the warm, tolerant heart of its author. It is a defense of truth—religious truth is 'bulwarked'—dogmatism and party intolerance decried. Friendship, intercommunication, travel and cosmopolitanism in learning are advocated."

The institute is under the direction of County Superintendent C. W. Crum, who has secured as instructors the following named:

D. C. O'Connor, Norfolk; H. E. Funk, Battle Creek; A. E. Parsons, Creston, Iowa; Miss Williams, Norfolk. The session will continue through the entire week, closing Saturday evening.

A Card to the Subscribers to the Alba Heywood List.

One hundred and ten tickets were subscribed for in writing on this list, making valid legal contracts for same. After a full day's work now only 59 tickets are delivered. Our contract with the Alba Heywood company was based upon this list, which we supposed had some value, but at present it is only an iridescent dream, in fact an ignis fatuus. The subscribers have not only misled us in disappointing us about the

absolute guaranty, but also in its supposed reflection of the feeling of the town, or city.

It is difficult to get a company of this class without either a very liberal contract, which ordinarily results in the management losing money, or by the citizens making a guaranty in some form.

This card is not published to air grievances or complain particularly, but there is such a difference between the tickets subscribed for and actually sold that it seems the subscribers to the list should be informed of it, particularly in the hope that in the future they will be more careful about putting their names on a list if they do not expect to take tickets. A. J. DURLAND.

A drove of 125 wild Idaho horses was brought into town this morning and placed in Davenport's yards. Bystanders have this afternoon extracted considerable amusement out of seeing the

men having charge of the horses lasso and bring them out for inspection.

Police Judge Hayes says that although he has an elegant new docket, there has not been business enough in the past week to enable him to make his first entry in the book. He thinks Norfolk is altogether too peaceful a community to make the police court self sustaining.

The Elkhorn evening train was about four hours late last night, the delay being caused by a washout of 600 feet of track on the Northwestern, near Ames, Iowa. The Union Pacific was also late. The Elkhorn train due here at noon today not get in until 3 o'clock this afternoon.

R. D. Scott of the Battle Creek Enterprise was in the city yesterday afternoon. He contemplates a trip to his old home in Virginia in the near future, where he will remain for a month in hopes that the change will prove beneficial to his health. He has never fully recovered from the attack of grip he had during the winter.

W. H. Bucholz returned on the belated Union Pacific last night from his business trip to Wyoming. He was in Casper when Sheriff Hazen, who had been fatally wounded by the Union Pacific robbers, was brought home. Night before last Mr. Bucholz took supper with Mr. and Mrs. E. C. Harris at Cheyenne, who are getting along nicely in their new home.

The Festival of the Flowers, which will be given under the auspices of the Ladies' guild of Trinity church on the evenings of June 21 and 22, will be one of the prettiest entertainments that has been held in this city for a long time. Mrs. Day, who is directing the affair, has been ardently at work for a month or more getting ready, and people generally are looking forward to the event with pleasurable anticipation.

Prospect Hill cemetery begins to show the beauty of the park plan, which was adopted a few years ago, more this season than ever before. The trees are now a pretty good size, the blue grass lawns are kept green and fresh, and the well defined drives and walks give the grounds the appearance of a carefully kept city park. The cemetery is now a credit to Norfolk, which is more than could be said for it before the park system was adopted.

At the home of the bride's parents, Mr. and Mrs. R. M. Frazer on Third street and Madison avenue, this afternoon Rev. W. H. Eaton of the Baptist church pronounced the words which united for life Mr. Harry Hall and Miss Florence Frazer. The last census taken of Norfolk was in 1890 when the population was listed at 3038. At that time the school census gave the names of 900 children entitled to the benefits of the public school system. This year the school census makes a return of 1750 children, so that there is no mistake but that the city has nearly doubled its population in nine years. The federal census of 1900 will without doubt show that the population of Norfolk is between 6,000 and 7,000.

Norfolk now possesses six first class lawn tennis courts, several of them being new this season—those of the Drs. Salter at their new residence, the one at the Rome Miller residence, one on Mr. Weller's lots at the corner of Eleventh street and Norfolk avenue, that of the Boys' tennis club at the corner of Eleventh street and Madison avenue, Stitt and Hazen's and Heman Walker's on The Heights. Some interesting games are anticipated as soon as the clouds roll by.

The funeral of Mrs. Clyde Eiseley was held at two o'clock this afternoon, conducted by Rev. J. H. Main. It will be remembered that Mrs. Eiseley died at the home of her husband's parents, where they had gone but a few days before her death that she might have the watchful care of a kind mother-in-law, but her remains were subsequently removed to her own home on South Third street, where the last sad rites took place this afternoon. A large number of friends were present to manifest their sympathy. Interment was in Prospect Hill cemetery.

Nebraska Farmer: All experience of orcharding in the Missouri Valley shows that the trees must be given thorough and systematic tillage in order to make the growth that is necessary to successful fruit production. Only by thorough and systematic tillage is it possible to retain moisture in the soil and develop the nitrogen and other elements of growth necessary to nurture the trees, and if the orchard does not get this thorough tillage, it is almost certain to prove a failure. Keep the disc or other tillage implement going in the orchard so that the soil may be kept loose and free from weeds during the growing season.

The entertainment at the Congregational church last evening was well attended, notwithstanding the threatening weather. The stereopticon views, illustrating scenes from Ben Hur, given by Mr. E. E. Adams, were especially fine and the descriptive lecture proved of interest. The illustrated songs by Mrs. Adams were a pleasing feature, and the piano and harp selections by

Misses Fannie and Minnie Norton and Mr. Pasewalk were well received. At the close of this portion of the entertainment, those present were invited into the lecture room where young ladies served refreshments. The entertainment netted the Y. P. S. C. E. about \$14.

THE CHECK WAS FORGED.

A Man Named Wilson Passes Worthless Paper Against an Omaha Bank

A few days ago a check was presented at the Citizens National bank, purporting to be drawn in favor of J. G. Wilson by the Hampton Lumber Co. of Omaha, per A. S. Stewart, treasurer, upon the Nebraska National bank of that city, for \$33.00. The check was brought to the bank by a local man, who said that he had received it from a man about 50 years of age, going under the name of Wilson, and who was on a prolonged spree in this city last week. The check had been taken in payment of an \$8.00 account, with the understanding that the balance was to be returned to the man Wilson. There were certain things about the check which gave it a suspicious appearance, the principal one being that the writing on the face seemed to have been done by the same hand as the endorsement on the back, and the bank refused to cash it but accepted it for collection. The check was sent direct to the Hampton Lumber company in Omaha, instead of to the bank, with inquiry as to whether it was good or not. The answer came back promptly that the check was a forgery pure and simple, that the name of the treasurer of the Hampton Lumber company is E. G. Hampton, and that he only has authority to attach his signature to checks issued by that company.

The man who has \$8.00 invested in the check will probably whistle some time for his money, as the man Wilson departed the town quietly some days ago, without leaving his future postoffice address.

Mrs. Clyde Eiseley.

From Monday's Daily: Mrs. Clyde E. Eiseley quietly passed away at the home of her husband's parents at 12:30 this morning. About six months ago Mrs. Eiseley was stricken with consumption, and since then she has been gradually failing until during the past two months her death at any time would not have been unexpected. She was born at Burlington, Iowa, and was in her thirty-third year. Her maiden name was Anna Enderly and she became the wife of Clyde E. Eiseley about six years ago. Besides her husband, she leaves two small children, the boy Leo, five years old, and the baby Esther, nine months old.

Mrs. Eiseley was the daughter of C. Enderly, who lives a mile east of the city, and a number of brothers and sisters survive her. The brothers are Fred at Gering, this state; George at Terry, S. D.; Ed at Bigler, Montana; Louis at Harrisburg, Neb.; Will at Port Arthur, Texas. The sisters are Mrs. W. O. Toliver at Laurel, Neb.; Mrs. E. E. Burdick at Butte, Montana, but who is now at Laurel; Mrs. W. E. Powers of Pierce; Mrs. Manchester of Butte, Montana; Mrs. Kate Handley of this city. This is the first death in the Enderly family of 11 children, all of whom have grown to manhood and womanhood.

Mrs. Eiseley was of a lovable disposition who made friends of all her acquaintances. For some months she has realized that her days were few, and she awaited her with true Christian fortitude. The funeral will be held Wednesday or Thursday, but the arrangements will not be announced until responses have been received from telegrams sent this morning.

At the M. E. Church, Friday Evening. Prof. Ed. A. Ott's lecture at the opera house last Friday evening, entitled "Sour Grapes," was one of the most pleasingly unique and edifying presentations of the basis of human character that it was ever our privilege to enjoy. His style and manner of delivery was that of one of nature's noblemen, as he is, and the magnetic power with which he enforced his rugged truths and inspirations to true nobility of life, held the rapt attention of his intelligent audience from the beginning to the close. Mr. Ott is a deep and independent thinker and a fine speaker, and Chariton will give him a hearty welcome should he chance to visit us again. —Chariton Herald.

Alba Heywood, the prince of comedians, who will appear at Marquardt's hall Friday evening tells the following humorous incident: "I was sitting at my make-up table in my dressing room a few nights ago, making up for my first appearance which is in evening dress. I had arched my eye-brows to a nicety, strengthened the lashes, improved my complexion, and, as I flattered myself, obliterated several defects in my nose too handsome face, and made several improvements on nature, when the old janitor who, unnoticed, had been standing behind me watching my metamorphosis in the mirror, remarked: "It do beat all how a little paint disfigures a man, don't it?" I simply thought "Love's Labor Lost."

Our citizens will have an opportunity of consulting the eminent eye specialist, Dr. W. I. Seymour at the Oxnard, June 19th.

HERRING AS LEGAL TENDER.

Wisconsin Editors Protest Against Its Further Use Among the Fraternity in That State.

The Wisconsin editors who passed through the city a few days ago on their way home, had a big time in the Black Hills, and barring one disturbing feature, report the trip as an unqualified success. The one event to mar the pleasure of the trip was told in the presence of the reporter as follows:

Secretary O. T. Roessler was arrested for feeding the editors, on embalmed beef at Lead and brook trout at Long Pine and J. H. Gable was named as co-respondent. U. S. Marshal Haines arrested the defendant and put him in irons, while Gable was chained to Roessler with a towel.

The gravity of the offense demanded an immediate trial which was given on board the train, and over which Amos P. Wilder presided as judge advocate. Mr. Sheldon appeared on behalf of the Wisconsin Editors' association as prosecuting attorney, while E. B. Bolam and Bert Hoard represented the defendants. The first witness called swore that he had lived next door to a meat market for 19 years and was familiar with meat market processes. He was not fed on the alleged embalmed beef, as he restricted himself to liquid refreshments at Lead but was positive the beef was embalmed.

The second witness had seen photographs of embalmed beef and read accounts of it. Although he did not eat with the crowd at Lead, having patronized a free lunch, he could say, not for publication but as an evidence of good faith, that it was embalmed beef.

An expert fisherman testified as to what bait was best, and how he carried his bait. He was cross-examined as to the best way to get a mess of fish and believed the meat market way best. He thought a law against fishermen's yarns would be unconstitutional. He favored a constitutional amendment prohibiting the use of codfish in boarding houses, and recommended that

stewed prunes and dried apples be designated as fish. He believed dried herring ought not to be made legal tender even for newspapers, at least not at the present ratio of one herring to 16 new papers.

Dr. Bishop, being sworn, testified that he did not believe that brains could be evolved in Wisconsin editors by fish or any other ordinary diet. This statement produced a riot in court, and while the editors were attempting to expel the doctor from the train, with intention of leaving him to run at large on the sandhills of western Nebraska the prisoners broke the towel which bound them together and made their escape. The fury of the crowd having been turned upon the doctor, the lessee of having fed the editors on embalmed beef was forgotten, and the defendants were allowed to come down the valley with the train with no greater charge against them than a Scotch verdict of "Not Proven."

Grain-O Brings Relief.

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25 cents per package.

Give the Children a Drink

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about one-fourth as much as coffee, 15 and 25 cents.

FOUR YEARS FOR CHRISTIANI

Man Who Assaulted President Loubet Is Promptly Sent to Prison.

PARIS, June 14.—Baron Christiani, who assaulted President Loubet with a cane at the Antoinette races June 4, was sentenced to four years imprisonment. Christiani was tried before the correctional police court. The judges deliberated 35 minutes and delivered judgment, saying that, according to the articles of the penal code under which Christiani was sentenced, he was liable to from two to five years imprisonment. There was a general exclamation of surprise when the prisoner was sentenced to four years imprisonment and also to pay the costs of the trial. Christiani listened unmoved to his sentence. The procurer general, M. Fouillat, personally prosecuted Baron Christiani. The latter, who is above the medium height, with an iron gray moustache, wore an eye-glass and was attired in black. He appeared anxious and in his reply to the judge said he acted in a moment of super-excitement.

Denver Smelters Shut Down.

DENVER, June 14.—The Omaha & Grant smelter and the Globe in Denver and the smelters in the trust at Pueblo and Leadville will probably be blown out by tonight at 12 o'clock, on account of the inauguration of the eight-hour law in Colorado and the failure of the trust managers to agree with the employees in the matter of hours and wages. The managers yesterday ordered the superintendents to "blow out" the furnaces. By the closing of the Grant and Globe smelters in this city about 1,100 men will be out of employment. Neither the management nor the men anticipate that the closing will be long.

Mr. Bland Continues to Improve.

LEBANON, Mo., June 14.—Mr. Bland continues to improve and his condition inspires his physicians and friends to hope for ultimate recovery. The announcement of the proposed visit of Colonel W. J. Bryan on Sunday has acted as a tonic to his spirits. Dr. McComb, Mr. Bland's family physician, is quite hopeful of his ultimate recovery and expects much benefit from the apparent determination of his patient to throw off the hand of the grim reaper.
